Introduction to the Vocation of the Business Leader

Vocation of the Business Leader & Catholic Social Teaching Case Studies

On behalf of Rothlin International Management Consulting Co. Ltd. and the Hong Kong International Institute of Educational Leadership, we invite you to participate in our conference commemorating the Chinese translation and publication of the Pontifical Council for Justice and Peace’s recent statement, the *Vocation of the Business Leader – A Reflection*.

China’s emerging identity as a global economic leader will increasingly be shaped by the work of its business community. It is therefore imperative for Chinese business leaders to discern an ethic of responsibility and adopt a family of principles in their business practices to ensure sustainable growth and maintain the goodwill of their stakeholders.

In light of this, we regard the *Vocation of the Business Leader – A Reflection*, now available to Chinese business leaders, as a challenging contribution to our dialogue, enhancing mutual understanding and providing support in our common effort to achieve high standards of excellence in business. We look forward to exploring its meaning and implications with you!
