

Joint School Mentorship Program – 8th Mar 2008

8th March 2008 marked the highlight of the series of activities organized by the Wah Yan HK PSA Mentorship Program.

Co-organized with Marymount Secondary School Alumnae Association (MSSAA), the career planning and development workshop served as a platform for sharing of both prepare-for and on-the-job experiences by our alumnae. Over 130 students, fresh graduates and their respective mentors from both schools participated in the event.

Right after the kick-off speeches delivered by the principal and assistant principal from both schools, the first part of the workshop was featured by an open forum. We were honoured to have four distinguished graduates from both schools viz Miss Amy Cheuk, Mrs. Jennie Chor, Dr. Thomas Tsang Ho-fai and Mr. Fung King-tak to be our guest speakers. They shared their insights, experiences and tips on how they planned and paved their ways to a successful career and the audience was given a Q & A session afterwards.

The second part of the program was in the form of field-specific discussion in which mentees and mentors were free to sit into smaller groups of different industries to ensure a closer and more personal interaction.

The program ended with a buffet dinner which allowed the participants to mingle with one another.

The mentees found that the sharing was very inspiring and useful and it was a golden opportunity to meet with professionals from over 10 industries in one occasion.
