

Wah Yan Joint School Activity with MSS

7 Mar 2009 was another milestone for Wah Yan (Hong Kong) Past Students Association and Marymount Secondary School Alumnae Association as the two associations organized a joint school function in MSS school hall with “Crises, Temptations and Opportunities” being the theme of the event. A plethora of F.6 students from both WYCHK and MSS attended the event together with two principals, mentors and mentees of the two schools.

In the first part of the event, it kicked off with the personal experience sharing session by 4 speakers from the mentors of WYCHK and MSS. Speakers related their personal experience with the theme of the event, “Crises, Temptations and Opportunities”, and thus bringing out the appropriate methods to resist temptations.

Following the sharing by the 4 mentors, the focus turned to another sharing session by 3 working mentees from WYCHK and a young mentor from MSS. During this session, four of them shared their lives during university and early stage of career with the audiences, and thus enabling matriculation students to have a deeper general idea of how their lives would be after crossing the threshold of secondary education.

The final part of the day’s activity was wrapped up by the sharing of mentors working in different industries with all participants. They formed different circle chatterboxes and exchanged ideas about the life and perception of different industries. All participants enjoyed the event.
